Bryan Pham

- Does your program compile correctly? Yes, it compiles correctly.

- Does your program run correctly? Yes, it runs correctly.

- Everything in this program works as expected. I have tested all the sample output and it matches up. I also did some tests on my own as well.

- I believe my program is efficient in time and space complexity. Note: There could be some places in the code that I could make more efficient, like not using a lot of if-else statements in my doStrategy method.

- I spent roughly 15 hours on this assignment.

- My expected score:

Grading Criteria	Points Possible	Your Expected Score
The program gives the correct output	48	48
The program obeys the constraints	5	5
The program has a good design and style	2.5	2.5
The write up is complete **(Pham-Assignment2.pdf)**	2.5	2.5
The output format is correct	2.5	2.5
The filename format is correct	1	1
